Hello and welcome to the teaching areas of Marketing and Financial Services, and Retail and Event Management.

We offer a wide range of courses in marketing, advertising, business, financial services, retail operations and events management. These courses enable students to develop their knowledge and skills in a particular field of interest.

Completing one of the qualifications, whether it’s at Certificate or Diploma level, will provide the graduate with a sound basis to pursue further study or a career in that field.

As a general rule, our study programs consist of a range of learning activities and assessments. These are supported by learning materials supplied to the student in either written format, online or using media such as CDs and DVDs. Of course, you can add to this with your own reading and industry experience.

As you have a look at our OTEN Learning Support website, remember that our teachers are only too pleased to help you with any questions you may have. Many thanks for taking the time to visit our section. Best wishes with your studies.
